Fourth-year undergraduate student at Bharath Institute Of Higher Education and Research, aspiring to become a Web Developer. With a strong foundation in Java and extensive experience in Web technologies such as HTML, CSS, Javascript, React, I have completed notable projects including Weather App, Shopping Cart, Medical Management Website. With an ambitious and analytical mindset, I am eager to offer valuable contributions to organizations in pursuit of innovative approaches to built webpages.

Multi-faceted Student with expertise in:

Python - Java - C - C++ - HTML/CSS - JavaScript - React - SQL

## WORK EXPERIENCE

### Postulate Infotech

(January 26, 2023 - April 26, 2023)

Full Stack Developer Intern

These experiences helped me become well-founded in Web development.

- Implemented responsive design principles to ensure the project was accessible and visually appealing across various devices and screen sizes.
- Utilized CSS media queries and flexible grid layouts to achieve a consistent user interface across desktops, tablets, and smartphones.
- Developed user-friendly features using HTML, CSS, and JavaScript, enhancing the overall usability and interactivity of the application.
- Leveraged popular front-end frameworks like Bootstrap or Materialize CSS to streamline the development process and ensure a consistent design system.
- Integrated JavaScript libraries (e.g., jQuery) for enhanced functionality and improved user interaction, such as form validation and dynamic content loading.
- Actively participated in team discussions, providing valuable insights and suggestions to solve complex front-end challenges.

## EDUCATION

### Bharath Institute of Higher Education and Research

(August 01, 2020 - July 01, 2024)

Bachelor of Technology, Computer Science

## PROJECTS

### Weather App

Weather App is a comprehensive and user-friendly weather application designed to provide accurate and real-time weather information to users. With its intuitive interface and powerful features, Weather App offers a seamless experience for users to stay updated on weather conditions in their location and around the world.

### Shopping Cart

Shopping Cart is a responsive and interactive online shopping cart system developed using HTML, CSS, and JavaScript. It provides users with a seamless shopping experience, allowing them to browse products, add items to their cart,

### Medical Management

still in development

## CERTIFICATIONS

### The Complete Web Developer in 2022

(July 03, 2023)
